

## Gateway Cup and Ride to Unite - CANCELLED

Big Shark Events, the staff of the Gateway Cup Professional Bicycle Races and Cycle St. Louis have made the difficult decision to cancel the 2020 races and charity rides, including Ride to Unite scheduled for September 5th at Francis Park. The safety of our participants, their families and supporters is of primary concern and with transmission data trending the wrong way in the St. Louis metro area, holding these events is not in the best interest of all involved.

### Want to Ride?

During this time, Cycle St. Louis wants to keep our cycling community riding, thinking of cycling, and inspired and ready to go when it is safer to do so. To this end, our amazing partner, Trailnet, has re-engineered many of their **Classic** and **Community Rides** to be self-guided over an extended period of time, versus one-day events. For FREE ride codes for Trailnet events, please email [cyclestlpartnership@gmail.com](mailto:cyclestlpartnership@gmail.com) and whether you do a Trailnet ride or simply ride around your neighborhood, please share your story and pictures with us.

### Safe Places to Ride

Our region is blessed to have 128 miles of Greenways, which are safe places to ride for everyone. For area maps and the latest information on new and enhanced greenways, visit **Great River Greenway's website**.

### Stay in the Know

A wide variety of information on cycling for individuals with disabilities can be found at:

- *Cycle St. Louis*, see our **Frequently Asked Questions** page
- *We Love Cycling*, although based in the UK, has lots of useful cycling information, including **stories about disabled cyclists**.
- *Wheels for Wellbeing*, also based in the UK, is one of our favorite cycling groups that advocates and provides programs for people with disabilities. Check out their information on **Types of adapted cycles**
- *Eyes Free Sports Podcasts*, **These 15 podcasts about visually impaired athletes** includes a **feature on San Diego's Blind Stoker's Club**.

We all ride the same road. We will remain strong and look forward to a time when Cycle St. Louis events resume. Thank you for your support. Stay well!
